

MINGYU PARK

mingyu@unist.ac.kr; m.park.biochem@gmail.com | +82-10-7562-0427 | Ulsan, Korea

 <https://mingyupark.phd>

RESEARCH INTERESTS

- Design and synthesis of organometallic photosensitizers
- Oxidative modulation of biological processes
- Proteomic analyses of oxidative modifications

Current Position

Postdoctoral Researcher

Mar. 2025 – Present

Ulsan National Institute of Science and Technology (UNIST), South Korea

EDUCATION

Ph.D. in Chemistry

Sep. 2018 – Feb. 2025

Ulsan National Institute of Science and Technology (UNIST), South Korea

Supervisor: Prof. Tae-Hyuk Kwon

B.S. in Chemistry

Mar. 2014 – Aug. 2018

Ulsan National Institute of Science and Technology (UNIST), South Korea

PUBLICATIONS

- [1] Jung Seung Nam, Myeong-Gyun Kang, Chang-Mo Yoo, Chae Gyu Lee, **Mingyu Park**, Jeong Kon Seo*, Hyun-Woo Rhee*, Tae-Hyuk Kwon*. "Zero-length photo-crosslinking by organoiridium catalyst for intracellular interactome mapping" *under revision*
- [2] **Mingyu Park**†, Jung Seung Nam†, Taehyun Kim†, Gwangsu Yoon, Seoyoon Kim, Chaiheon Lee, Chae Gyu Lee, Sungjin Park, Kochan S. Bejoymohandas, Jihyeon Yang, Yoon Hee Kwon, Yoo Jin Lee, Jeong Kon Seo, Duyoung Min*, Taiho Park*, and Tae-Hyuk Kwon* "Rational Design of Biocompatible Ir(III) Photosensitizer to Overcome Drug-Resistant Cancer via Oxidative Autophagy Inhibition" *Adv. Sci.* **2025**, *12*, 2407236 (†Contributed equally)
- [3] Seoyoon Kim†, Eojin Kim†, **Mingyu Park**†, Seong Ho Kim†, Byung-Gyu Kim, Victor W. Sadongo, W.C. Bhashini Wijesinghe, Yu-Gon Eom, Gwangsu Yoon, Chaiheon Lee, Hannah Jeong, Chae Un Kim, Kyungjae Myung, Jeong-Mo Choi, Seung Kyu Min*, Tae-Hyuk Kwon*, and Duyoung Min* "Hidden route of protein damage through oxygen-confined photooxidation" *Nat Commun* **15**, 10873 (2024). (†Contributed equally)
- [4] Chaiheon Lee†, **Mingyu Park**†, W. C. Bhashini Wijesinghe†, Seungjin Na, Chae Gyu Lee, Eunhye Hwang, Gwangsu Yoon, Jeong Kyeong Lee, Deok-Ho Roh, Yoon Hee Kwon, Jihyeon Yang, Sebastian A. Hughes, James E. Vince, Jeong Kon Seo*, Duyoung Min*, and Tae-Hyuk Kwon* "Oxidative photocatalysis on membranes triggers non-canonical pyroptosis" *Nat Commun* **15**, 4025 (2024). (†Contributed equally)
- [5] Chaiheon Lee, Jung Seung Nam, Chae Gyu Lee, **Mingyu Park**, Chang-Mo Yoo, Hyun-Woo Rhee, Jeong Kon Seo*, & Tae-Hyuk Kwon* "Analysing the mechanism of mitochondrial oxidation-induced cell death using a multifunctional iridium(III) photosensitiser" *Nat Commun* **12**, 26 (2021).

GRANTS

[1] **(PI)** Basic Science Research Program – National Research Foundation of Korea

"Scalable photooxidation for next-generation photodynamic therapy"

Sep. 2025 – Aug. 2028

[2] (Participating) Basic Research in Science and Engineering – National Research Foundation of Korea

"Development of organic photocatalyst based on water splitting for high resolution protein-interactome mapping"

Mar. 2025 – Feb. 2028

[3] (Participating; *Selected as 2025 Outstanding results in healthcare R&D*) National R&D Program for Cancer Control – National Cancer Center

"Endomembrane-target oxidation of pancreatic cancer for immune activation"

Apr. 2022 – Dec. 2024

[4] (Participating) Tech Incubator Program for Startup – Korea Technology and Information Promotion Agency for SME

"Development of a Photodynamic Therapy (PDT) Platform Using Next-Generation. Photosensitizers"

Sep. 2021 – Aug. 2023

PATENT

[1] Tae-Hyuk Kwon, Chaiheon Lee, and **Mingyu Park**

"WATER SPLITTING BASED PHOTSENSITIZER AND COMPOSITION FOR PHOTODYNAMIC THERAPY"

Korea Patent - Application No. 10-2023-0051598

AWARDS

- **Best Poster Award** - 21st Congress of the European Society for Photobiology (Aug. 2025)
- **2025 Graduate Student Excellent Research Award** (Feb. 2025)
- **Poster of Excellence** - 2024 Korean Chemical Society Fall Meeting (Oct. 2024)

TALKS

- **(Invited)** International Photodynamic Association: Rising Stars in PDT Research (May 2025)
- The Polymer Society of Korea 2025 Spring Meeting (Apr. 2025)
- 129th General Meeting of the Korean Chemical Society (Apr. 2022)

TEACHING

Academic Service

Lab-based Mentorship

Sep. 2024 – Present

Lead weekly lab meetings and journal club; provided guidance on experimental design and data analysis for 6 graduate students, 3 of whom received awards at academic conferences.

Teaching Assistant

Organic Electronic Materials

2020

Graduate course on design strategies for energy level tuning of organic materials. Responsible for preparing exams, and holding office hours.

Organic Chemistry Lab

2019

Undergraduate lab course in organic synthesis. Responsible for pre-lab experiment, preparing exams, delivering lectures, and tutoring organic synthesis and characterization.

General Chemistry Lab I&II

2017 - 2019

Undergraduate lab course in organic and inorganic chemical experiment. Responsible for preparing experimental setups and exams, delivering lectures, and tutoring experimental details.
